

Setup Instructions for QSC Speaker with On-Stage BC1000 Bluetooth RCA Connector

1. **Power On the Speaker** – Plug in and turn on the **QSC speaker** to prepare it for audio input.
2. **Connect the Bluetooth Adapter** – Plug the **On-Stage BC1000 Bluetooth adapter** into the “**HI-Z/Line**” OR “**Line In B**” input (depending on your speaker) on the QSC speaker.
3. **Enable Bluetooth Mode** – Press the **Bluetooth pairing button** on the BC1000 until the indicator light flashes, signaling pairing mode.
4. **Pair with Your Device** – Open your **Bluetooth settings** on your phone or audio source and select “**On-Stage BC1000.**”
5. **Troubleshoot Connection** – If the first connection fails, check for a **second “BC1000” option** in Bluetooth settings and try pairing again.
6. **Utilize Gain Knobs** – Adjust the **gain knobs above or below the Bluetooth connector** to control volume levels and optimize sound output.
7. **Adjust Audio Output** – Play audio to test sound quality and adjust volume levels on both your device and the speaker.
8. **(For Mixer Use) Use RCA Output** – Plug an **RCA cable into the bottom “Mix Out” or “Line Out” output** (depending on your speaker) and connect it to your audio source.
9. **(Optional) Hook Up a Microphone** – If using a **microphone**, plug it into the “**Mic/Line**” input on the QSC speaker. Volume knobs will be directly above or below the input.
10. **Optimize Speaker Placement** – Position the speaker for the best sound distribution and minimize obstructions.
11. **Secure Connections** – Ensure all cables and Bluetooth connections are stable before use. Start playing music, making announcements, or using the speaker as needed.
